Abrasive cloth, waterproof

CS 321 X

Properties

Bonding agent	Resin	
Grain	SiC	
Coating	Close	
Backing	X-co <mark>tton</mark>	

Product benefit

Produces a brilliant, glossy finish on stainless steel surfaces due to the very hard and sharp-edged silicon carbide grit - Very high aggressiveness and abrasive performance - Especially suitable for wet grinding

Materials

Mineral based materials	•
Plastic	•
Stainless steel	•

Applications

- ► Stainless steel processing industry
- ► Medical engineering
